SAI SANDEEP VUNNAM

This is a placeholder. The real resume PDF has not been added yet.

To replace it, drop your PDF here, keeping this exact filename:

`static/files/Sai-Sandeep-Vunnam-Resume.pdf`

then run: `python3 build.py`

Every Resume link on the site points at that one path, so replacing the file updates the nav, the hero, the contact section and the footer at once. Nothing else needs editing.
